## SOURCE

1. There is attached a chart which is a recapitulation of the official labor statistics of the three leading oil companies in the western Venezuela area—the Creole Oil Company (Standard Oil Company of New Jersey), the Venezuelan Oil Company (Shell Oil Company), and the Mene Grande Oil Company (Gulf Oil Company).
2. These figures indicate the relative numerical strength of the "red labor syndicate" (Communist) and the "blue labor syndicate" (formerly controlled by the Accion Democratica) as of 28 February 1949. It will be noted that the difference between the sum of these two groups and the total number of workers in a given place is composed of independents with no apparent syndical or political affiliation. Although these figures vary somewhat from month to month, they are considered a reasonable average.
